

CASE STUDY:

Kingston University

SERVICE: MAINTENANCE, REPAIRS AND EMERGENCY CALL OUTS

DURATION: Approx 15 years - present

VALUE: £58,720.00 – PPM

CLIENT: Kingston University Service Company Ltd. (KUSCO)

CLIENT LIAISON: Paul Chandler

JOB TITLE: Compliance Manager

Assets at-a-glance

Across the 6 campuses, we maintain approximately:

- **320 Air Conditioning Assets**
- **2 Ground Source Heat Pumps**
- **18 Chillers**

Accent were asked to complete a tender process for the air conditioning and chiller maintenance across six campuses at Kingston University. These include, Penrhyn Road, Knights Park, Roehampton Vale, Kingston Hill, Kingston School of Art River House and Tolworth Court.

We support also with emergency call outs and repair works as well as scheduled replacement

projects and any new installations.

Currently our projects department are completing a full end of life and R22 replacement project on all air conditioning units across all campuses. This is ongoing but our engineering team completed the life cycle of each system and identified which systems were approaching, at the end or past their expected life on each PPM visit.
